

# Exhibit 10

### **Description of Services**

Vervantis Inc. provides consulting services to industrial and commercial energy consumers. Vervantis acts as an agent on behalf of the consumer, as an extension of their internal teams and does not take ownership of any assets at any time.

Advisory services include: electricity and natural gas procurement, budgeting/forecasting of energy consumption and cost, sustainability strategy and invoice processing.

Vervantis is not involved directly in buying or selling of energy as it would create a conflict of interest for our clients. Vervantis will not act as a supplier of energy to any consumer (Industrial / Commercial or Residential) and will not act as a shipper or transporter of energy.

Vervantis is not representing any supplier interests.
